Forecast for Wednesday 28 Apr 2021

Weather: A wet, cloudy and cold day. The rain will be quite persistent through the day, turning to sleet/snow above 800m, poor conditions will persist through the daylight hours with severe wind chill on hill tops. Overnight conditions become drier and clearer.

Chance of cloud free mountain/hill tops above 600m: 20% through the morning becoming 80% by the evening.

Visibility: Poor or very poor on the higher paths through much of the day with cloud bases 500-800m. Cloud bases lifting through the evening above hill tops and breaking up overnight allowing visibility to become very good at all levels.
